Unboxing the Ojoy A1 the World's First Smartphone Watch for Kids

The box contains 3 things:

- 1) Ojoy A1 Smartwatch for Kids
- 2) Pogo Pin Charging Cable
- 3) User Manual

Ensure the following for further operations:

- 1) Ensure to charge the Watch completely
- 2) Insert the Nano Sim in the Nano Sim Slot

Quick look at the Ojoy A1

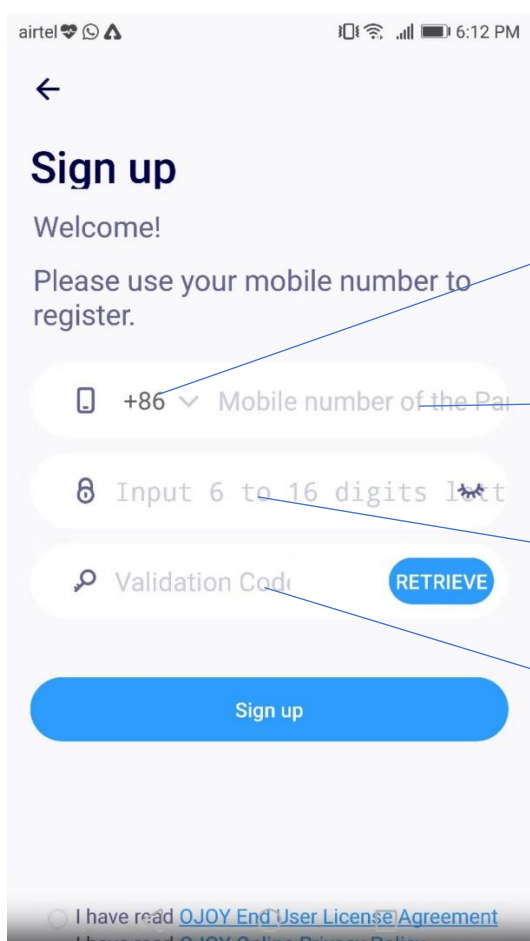

Set-up and Paring-up of Ojoy A1 Smartwatch for Kids with App

Step1: Download the Ojoy App in the Android Play store/ Apple store and Insert the operator Nano SIM into the Watch SIM Slot

Google Play Store Link: <https://play.google.com/store/apps/details?id=com.ojoy.champs>

Apple App Store Link: <https://itunes.apple.com/us/app/ojoy-watch/id1446683114?mt=8>

Step2: Sign-in to the App inputting Mobile number and OTP received for verification

The screenshot shows the 'Sign up' screen of the Ojoy App. The screen includes a back arrow, the title 'Sign up', a welcome message, and instructions to use a mobile number for registration. There are four input fields: a country code dropdown (set to +86), a field for the parent's mobile number, a password field (with a lock icon and a 'show/hide' toggle), and a validation code field with a 'RETRIEVE' button. A large blue 'Sign up' button is at the bottom. At the very bottom, there are two checkboxes for 'I have read OJOY End User License Agreement' and 'I have read OJOY Online Privacy Policy'. Four blue arrows point from text annotations on the right to specific elements on the screen: the first points to the country code dropdown, the second to the parent mobile number field, the third to the password field, and the fourth to the validation code field.

Please select the Country Code

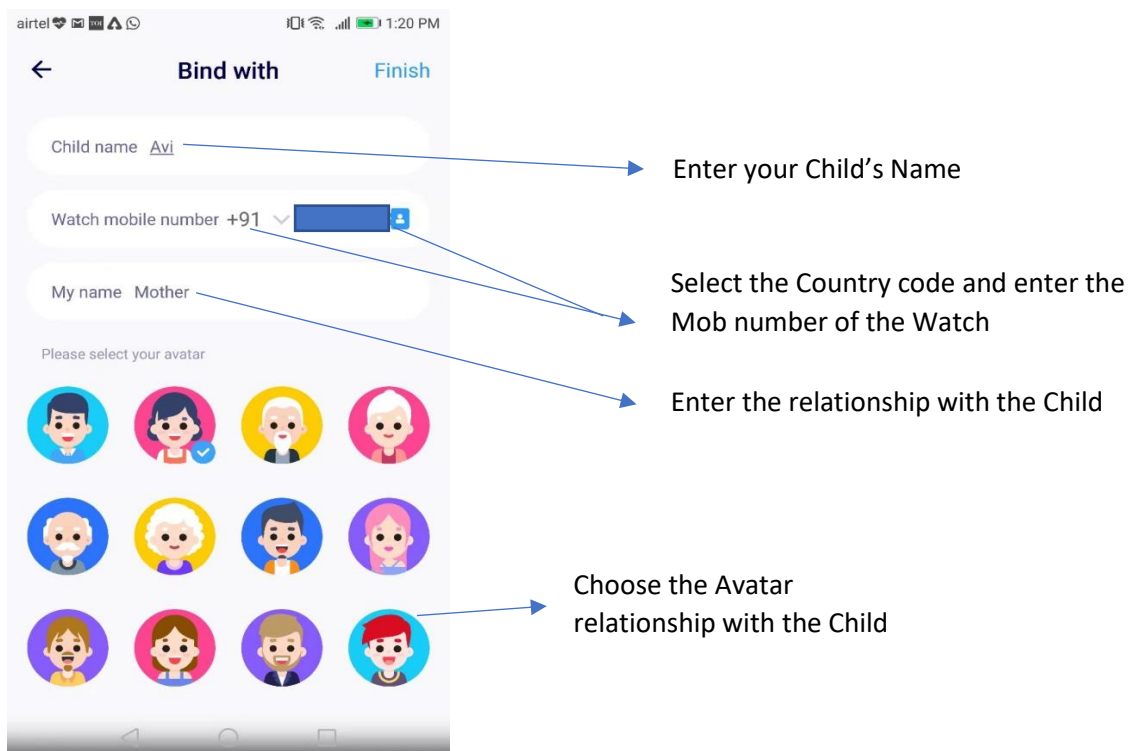

Input the Parent Mobile Number

Password should be 6 to 16 digits letter and number combinations

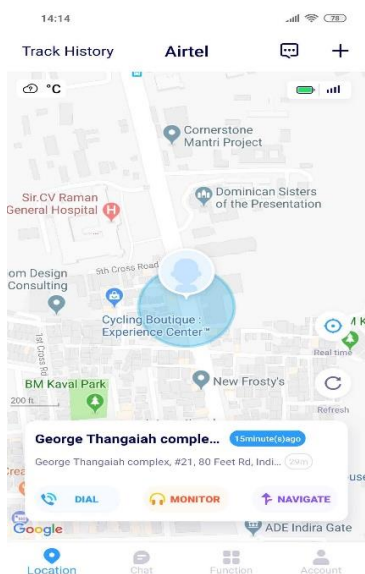

OTP Verification Code will come in the Message

Step3: Sign-in to the App and Scan the QR Code for the auto scanning or IMEI for the manual entry from the Watch

Step4: After the QR Code/IMEI entry **Bind the Watch** and click Finish to start connecting with your Child.

Step5: Upon Successful pairing you shall see the **Current Location** of the Watch, like below in the Ojoy Watch App main screen and Check if the **Dial Call is connecting**.

Having Trouble Paring.?

- Make sure you insert the Nano Sim into the Watch
- Ensuring the data pack is activated with the Operator Sim for the Watch
- For VoLTE Users: Make sure you **ON the HD Voice** in the Watch Settings
- Ensure the data pack is activated with the Operator in the Mobile Phone, so the App works.
- If the **Watch doesn't Charge** please Factory Reset the Watch by going to the Settings->QR Code->Double Click->Click Restore Factory Setting.

The Ojoy Watch App Functionalities

After the App is downloaded and the Watch is paired-up with the App by following the above and below are the following Functionalities the App has with the Watch to stay always connected with your Child.

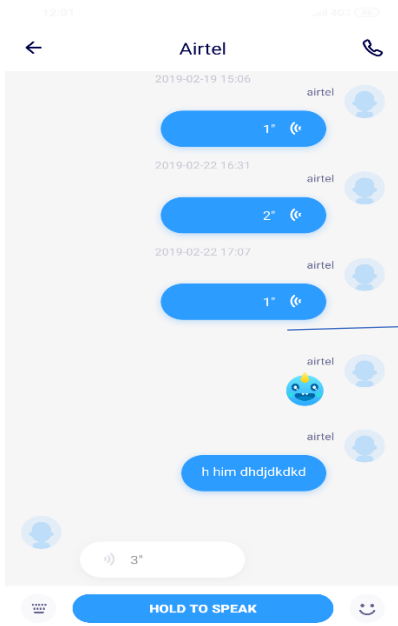

- I. Overlook of the Location and its functions
- II. Watch to App Chat and vice versa
- III. Watch Functionalities on the App
- IV.

Overlook of the Location and its functions

The screenshot displays the Ojoy Watch App interface. At the top, the status bar shows the time (14:14), signal strength, Wi-Fi, and battery (78%). Below the status bar, the app header includes 'Track History', 'Airtel' (operator), and a chat icon with a plus sign. The main area is a map showing the current location of the watch, marked with a blue circle and a person icon. A callout points to the 'Child's Name' field above the map. Other callouts identify the 'Watch Information Message' icon, the 'To Add Ojoy Watch, Family, Friend' plus icon, the 'Ojoy watch Operator Signal Strength' indicator, the 'Battery life of the Watch' indicator, the 'Climate of the Watch location in Degree Centigrade' indicator, the 'Current location of the Watch' marker, the 'Location refresh Button', and the 'Call to the Watch' button. Below the map, there are three main action buttons: 'DIAL', 'MONITOR', and 'NAVIGATE'. Callouts explain that 'DIAL' is for 'Navigation from the App/Parent Source location to destination of the Watch/Child's location', 'MONITOR' is for 'Remote monitoring and listening, where the App will trigger the watch to Call, in the background and the Parent can remotely listen to the Child's surrounding', and 'NAVIGATE' is for 'Functionalities with the Watch like the Step count, Magic School Marks Card, Task Management, Address book, calendar, Track History, Geo fencing, School Mode and so on. Please refer the below blow-up.' At the bottom, a navigation bar contains 'Location', 'Chat', 'Function', and 'Account' icons. A callout points to the 'Chat' icon, stating 'Chat to all the Watch through voice, text, Multimedia and Emoji'.

- Child's Name
- Watch Information Message
- To Add Ojoy Watch, Family, Friend
- Ojoy watch Operator Signal Strength
- Battery life of the Watch
- Climate of the Watch location in Degree Centigrade
- Current location of the Watch
- Location refresh Button
